## PROJECTS

**Kalpana Multispeciality Dental Clinic – Website ↗**
Jul 2026 - Oct 2026

• Developed a responsive, high-performance dental clinic website to enhance patient experience and online accessibility.
• Implemented online appointment scheduling, interactive treatment catalogs, doctor profiles, patient testimonials, and searchable FAQs.
• Integrated WhatsApp-based appointment booking for seamless patient communication.
• Designed user-friendly interfaces with a focus on responsive layouts, accessibility, and performance optimization.
• Built a comprehensive digital platform to improve clinic visibility and simplify patient interactions.

**Remanote – Notes & Link Management Platform ↗**
Oct 2026 - Present

• Developed Remanote, a web-based productivity platform to save, organize, and manage notes and important links in one centralized workspace.
• Designed an intuitive user interface for efficient information management and easy access to saved resources.
• Focused on simplifying digital note-taking and improving personal knowledge organization.

**Mayur Driving School Management App**
Feb 2026 - Aug 2026

• Developed an Android application using Kotlin to digitize and streamline driving school management operations.
• Implemented student registration, attendance tracking, fee management, and interactive quiz modules.
• Integrated Firebase Firestore for real-time data storage and student record management.
• Designed user-friendly interfaces to simplify administrative operations and improve student management.

**Offline-First MSRTC Bus Tracking System**
Sep 2026 - Present

• Developed an offline-first bus tracking solution using Android (Kotlin) and CellInfo API.
• Explored cell-tower-based location detection to estimate bus positions and arrival times without continuous GPS or internet connectivity.
• Implemented local route and tower mapping concepts using SQLite/Room for offline processing.
• Designed a crowdsourced tracking approach to improve public transport visibility and reduce dependency on costly GPS hardware.

## SKILLS

- Java
- Data Structures
- CSS
- C#
- MySQL
- Tableau
- FastAPI
- SQL
- Algorithms
- JavaScript
- Python
- MongoDB
- UI & UX Design
- Express.js
- Firebase
- HTML
- Node.js
- Kotlin
- Power BI
- Android

## EXTRA CURRICULAR ACTIVITIES

- ISTE Social Media Manager — Managed social media content, promotions, and digital coverage for multiple technical and college events under the ISTE committee.
